

MUNICIPALITY OF WEST PERTH
Notice To All Residents Of West Perth

Be advised that anyone intending to install a **swimming pool** is required to have a building permit before any work is started. Any swimming pool with greater than 0.4m (15 inches) water depth plus a recirculating pump requires a building permit and must be properly fenced according to by-law. Any pool that has been installed and that has not been covered by a permit is considered illegal. Questions? Call the Building Dept. at 348-8429 Ext. 226.
