

Municipality of West Perth  
**Notice to All Residents  
of West Perth**

Be advised that anyone intending to install a **driveway** is required to have a building permit before any work is started. In February 2006, a new policy was adopted by Council to require a building permit for the installation and/or resurfacing of driveways before any work is started in order to protect water service valves & sewer inspection clean-outs. In March 2006, concrete and paving contractors that service Mitchell & surrounding area were notified so they are aware of our requirements. Questions? Call the Building Dept. at 519-348-8429 Ext. 226
