

Having Issues Paying Online for Swimming?

When registering, **please ensure you are manually choosing the correct fees** on the Fees & Extras page. The computer will automatically choose “No Cost” as it is the cheapest option.

This “No Cost” option is only available for participants who are paying the “Family” fee, so they do not get charged multiple times for multiple participants.

If you would like to pay the family fee, please **choose “Family” for the first participant registered** and “No Cost” for any additional participants.

Otherwise, **please choose the fees based on the age of the participants** you are registering.

For questions or concerns, please contact the Recreation Coordinator.
