**4.2 Key Maps**

**Amended by By-law No. Z149-2012**

For the purpose of this By-law, Schedule "A", consisting of a Key Map Index, and Key Maps 1 to 68, inclusive, and Schedule "B" and Schedule "C" are attached to this By-law and are hereby declared to form part of this By-law.

The Key Maps which are attached as Schedule "A" and Schedule "B" to this By-law indicate the zones for all of the lands in the Corporation of the Municipality of West Perth as established by this By-law. The zones are indicated through the use of the zone symbols identified for their respective zones in Section 4.1 above.

**Amended by By-law No. Z98-2007**

The Key Maps which are attached as Schedule "A" to this By-law identify a number of open watercourses, including municipal drains. The location of these watercourses was based on mapping available through the Ontario Basic Mapping Program, which in turn was based on aerial photography from the 1980's. In some situations, municipal drain watercourses have been changed over to enclosed municipal drains and therefore an open watercourse no longer exists. When such situations occur, it shall not be

necessary to amend this By-law to reflect the change in classification of the watercourse (i.e. from any open municipal drain watercourse to an enclosed municipal drain) and the provisions of this By-law shall be applied as appropriate. It is intended that the Key Maps will be revised to reflect such changes at such time that the Municipality undertakes either general and/or housekeeping amendments to this Zoning By-law.

The Key Maps also are intended to display the boundaries of parcels of land and lots. These boundaries are intended to show the location and configuration of properties in the Town. Where a change in the configuration of a lot(s) occurs as a result of the approval of a Plan of Subdivision, or Consent application, or through some other legal manner, or in the case where more than one lot has been assembled, the revised and/or new lot configuration(s) on the various Key Maps may be displayed without the necessity of amending this By-law to show such revised and/or new lot configuration(s).

#### **Amended by By-law No. Z149-2012**

The Key Maps which are attached as Schedule "A" to this By-law identify the "Regulated Flood Area" which represents the approximate location of the boundaries of the "Generic Regulations", under Ontario Regulation 97/04, specifically Ontario Regulations 147/06, 157/06, and 164/06. The inclusion of the Regulated Flood Area on the Key Maps is for information purposes only and the applicable Conservation Authority should be contacted to determine how the "Generic Regulations" impact development proposals.

A Contaminant Attenuation Zone (CAZ) associated with the Fullarton Landfill Site is displayed on Key Map 62 of By-law No. 100-1998. It is intended to identify soil conditions that currently do not meet Reasonable Use Guideline concentrations for chloride and other secondary indicator parameters. The

CAZ is located on the Municipal Road. The inclusion of the CAZ on Key Map 62 is for information purposes only and the Municipality of West Perth should be contacted to determine how the CAZ impacts development proposals.

#### **4.3 Use of Zones and Zone Symbols**

The zones and symbols identified in Section 4.1 above shall be used when referring to land, buildings, and structures, and the uses thereof permitted by this By-law in said zones. Where the various zone symbols are shown on the Key Maps or Schedule "B", such reference is intended to indicate that the lands on which the zone symbol is placed are located within the corresponding zones as established by Section 4.1 above and shall be subject to the applicable zone provisions as set forth in this By-law for that respective zone.

Where a zone symbol applying to certain lands as shown on the Key Maps attached to this By-law on Schedule "A" is followed by a dash and a number (e.g. R1-1), such dash and number are intended to indicate that such land is the subject of one or more special zone provisions. The special zone provisions can be determined by referring to the "special provisions" section for the applicable zone as set forth in this By-law. Lands zoned in this manner will be subject to all other provisions for the respective zone except as otherwise provided for by the special provisions.

#### **4.4 Interpretation of Zone Boundaries**

The zone symbols as shown on the Key Maps of Schedule "A" to this By-law are bounded by thick black lines, the purpose of which lines is to indicate the extent of the zones. The following "rules of interpretation" are to be applied when determining the location of zone boundaries on the Key Maps, of Schedule "A" of this By-law, as

## Municipality of West Perth - Zoning By-law

adopted by Council, and kept in the Office of the Zoning Administrator:

- 4.4.1 Where any zone boundary is shown on Schedule "A" as following the boundary of a street, watercourse, or railway right-of-way, the zone boundary shall be considered to follow the centre line of such street, watercourse, or railway right-of-way;
- 4.4.2 Except as provided for in Section 4.4.1 above, where a zone boundary is shown on Schedule "A" as approximately following the boundary of a lot that is shown on a registered plan or a registered reference plan, the zone boundary shall be considered to be such lot boundary as shown on said registered plan or registered reference plan;
- 4.4.3 Where a zone boundary is shown on Schedule "A" as being parallel to, or approximately parallel to, a street and the distance from the street is not indicated, the zone boundary shall be considered as being parallel to such street and its distance from the street shall be determined by using the scale shown on the Schedule "A" Key Map to scale or measure the distance; and
- 4.4.4 Where any zone boundary is left uncertain after the application on the provisions of Sections 4.4.1, 4.4.2, and 4.4.3 of this By-law, the location of the zone boundary shall be determined by using the scale shown on the Schedule "A" Key Map to scale or measure the applicable distances.

### **4.5 Interpretation of Certain Words**

- 4.5.1 In this By-law, the word "shall" is considered to mean mandatory.
- 4.5.2 In this By-law, words used in the present tense include the future tense and vice-versa.
- 4.5.3 In this By-law, words used in the singular shall also be considered to include the plural unless the context of the application clearly indicates the contrary.
- 4.5.4 In this By-law, metric units shall apply to all requirements, regulations, and measurements. References to imperial units are only for the convenience of the user.

### **Amended by By-law No. Z98-2007**

- 4.5.5 Amendments to this By-law will not be required in order to make minor adjustments to the boundaries or the location of roads, correct typographical or patent errors, provided that the intent of the Zoning By-law is preserved.

## **5.9 Loading Space Requirements**

Where a building or structure is erected or used for a commercial or industrial use involving the receiving, shipping, loading, or unloading of goods, wares, merchandise, raw materials, or animals, the owner and/or occupant of the building or structure shall provide and maintain on the same lot on which such building or structure is located, and not on a street or lane, loading spaces and/or unloading spaces in accordance with the following requirements:

**5.9.6 Existing Buildings and Additions**

If an addition is made to a lawfully existing building which has the effect of increasing the gross floor area after the date of adoption of this By-law, the regulations of Section 5.9 shall apply in respect to the area of such addition.

**5.10 Mobile Homes Prohibited**

It shall be prohibited to locate or use a mobile home in any zone for any purpose, including for residential, commercial, industrial, or institutional use, whether temporarily or permanently, unless the use of a mobile home is specifically permitted by other provisions of this By-law. This provision shall also apply to a mobile home which has been or will be converted from a dwelling unit to some other use (such as an office, storage use, or accessory building).

**5.11 Multiple Uses**

Notwithstanding any other provisions of this By-law, where the use of any land, building, or structure is composed of two or more uses which are classified as having separate and distinct zone provisions under this By-law, none of these uses shall be considered as being accessory to one another and therefore the provisions governing each use shall be applied to each use as if each use existed independently.

## **5.12 Non-Conforming Uses, Buildings, and Structures (Legal)**

### **5.12.1 Existing Uses, Buildings, and Structures**

Nothing in this By-law shall prevent the continued use or continued existence of a legal non-conforming use, building or structure, subject to the other provisions of Section 5.12.

### **5.12.2 Building Permit Issued**

Nothing in this By-law shall apply to prevent the erection or use of a building or structure for a purpose not permitted in the zone in which such building or structure is located where a building permit has been lawfully issued under the Building Code Act, as amended from time to time, prior to the day of passing of this By-law, provided that the following are met:

- (a) the building or structure, when erected, is used and continues to be used for the purpose for which the permit was issued; and
- (b) the erection of such building or structure is commenced within one (1) year after the date of passing of this By-law and is completed within one (1) year of the date that the erection commenced.

### **5.12.3 Replacement of Non-Conforming Uses, Buildings, and Structures**

Where a lawfully existing building or structure is used for a purpose not permitted in the zone in which such building or structure is located and such building or structure is partially or totally destroyed by fire or similar natural cause or peril, such building or structure may be replaced or repaired and the non-conforming use re-established provided that the following conditions are met:

- (a) the owner must make application to the Corporation for a building permit to

replace the building or structure within one (1) year of the date on which the partial or total destruction occurred;

- (b) the replacement or repair of the building or structure must be completed within one (1) year of the date on the building permit for such replacement or repair issued by the Corporation;
- (c) the replacement or repair of the building or structure occurs at approximately the same location on the lot. In no case shall any encroachment into a required yard, other than that which existed on the date of passing of this By-law, be permitted. For the purpose of determining required yards, the most restrictive yard provision for that zone shall apply;
- (d) the replacement or repair does not increase the height, size, or volume of the building or structure as it existed prior to the partial or total destruction; and
- (e) the use of the building or structure is not changed and continues in the same manner as existed previously.

### **5.12.4 Building Repairs**

Nothing in this By-law shall apply to prevent the strengthening or restoring to a safe condition of any lawfully established building or structure which is used for a purpose not permitted in the zone in which such building or structure is located provided that the following provisions are met:

- (a) the strengthening or repairing does not increase the gross floor area, height, or lot coverage of the building or structure; and
- (b) the use of the building or structure is not changed and continues in the same manner as previously existed.

**Amended by By-law No. Z98-2007**

**5.12.5 Livestock facilities**

The repair or replacement of livestock facilities shall be permitted provided it does not increase the amount of floor area used for housing livestock. These repairs or replacements may result in a change in the type of livestock and/or change in the number livestock housed. Where a change in the type of livestock involves a change in the Factor “A” for livestock type in Table 1 of the MDS II, the livestock type change shall be permitted provided that the number of Nutrient Units decrease/increase is proportionately to the Factor “A” change (illustrated in the following Table).

$$\frac{\text{Proposed \# of Nutrient Units}}{\text{Existing \# of Nutrient Units}} = \frac{\text{Factor A of Type of Livestock}}{\text{Factor A of Proposed Type of Livestock}}$$

(For Example, a farmer who currently has a barn housing 50 beef cattle (including calf to weaning) wants to convert to swine).

$$\frac{Z}{50} = \frac{0.7}{1.0}$$

$$1.0 \times Z = 50 \times 0.7 \quad \text{then} \quad Z = 35$$

Using this formula, the farmer could house 35 Nutrient Units having a 1.0 Factor “A”, or in this example, (35 Nutrient units x 5 sows and boars) means that 175 sows and boars can be accommodated by the barn).

**5.13 Non-Complying Uses, Buildings and Structures**

Where a use, building or structure was lawfully established prior to the date of passing of this By-law, and where such use, building or structure is permitted by the zone

in which such use, building or structure is located, but where such use, building or structure does not meet the zone provisions with respect to required lot area, frontage, yards, parking, or any other provision applicable to that zone, such use, building or structure shall be deemed to comply with the By-law and may be enlarged, extended, reconstructed, repaired or renovated provided that:

**Amended by By-law No. Z98-2007**

- (a) the enlargement, extension, reconstruction, repair or renovation does not further reduce the compliance of the use, building or structure with the provisions of this By-law to which such use, building or structure does not comply. Where such enlargement, extension, reconstruction, repair or renovation involves a livestock facility and where the livestock/poultry involves a change in Factor “A” for livestock type in Table 1 of MDS II, the nutrient unit change shall be determined as illustrated of Section 5.12.5 on this By-law.
- (b) all other applicable provisions of this By-law are complied with;
- (c) where a non-complying building or structure is removed or destroyed, such building or structure may be reconstructed in a different location on the lot than the original building or structure, provided that the new location complies with (a) and (b) above, and provided such reconstruction occurs within one (1) year of the date of destruction of the original building; and
- (d) in the case of a rezoning or severance, the provisions of Section 5.13 shall continue to apply such that the said use, building or structure shall be deemed to comply with any applicable provisions of this By-law resulting from

such rezoning or severance, except that this provision shall not exempt a new use from complying with all applicable requirements of this By-law (such as number of parking spaces) related to such new use, other than those provisions recognized by Section 5.13.

- (e) for the purpose of Section 5.13, a non-complying building or structure which existed on January 1, 1998 shall be considered as lawfully established.

**5.14 Occupancy of Completed Buildings**  
**Refer to Section 2.4.3 of the Ontario Building Code, as amended from time to time.**

**AMENDED BY ONTARIO MUNICIPAL BOARD ORDER NO. 1045, JULY 18, 2000**  
**Amended by By-law No. Z149-2012**

**5.15 One Dwelling on One Lot**
